SERVICES

FIRST AND FOREMOST, **UNIVAR USA IS AN INDUSTRIAL CHEMICAL DISTRIBUTION COMPANY COMMITTED TO LONG-TERM PRESENCE IN THE CHEMICAL MARKETPLACE.**

Univar's outgrowth into the hazardous and non-hazardous waste management marketplace was a natural fit for an industrial chemical distribution company with a focus on compliance, risk management, and the reduction of liability exposure. After going to great lengths to audit and approve a network of disposal companies for our own waste management needs, facilitating our existing chemical customers' waste shipments to these same locations was a logical next step.

Today, **Univar's ChemCare®** service offers a multitude of different customer waste management services – through a network of approved TSD locations from the most respected waste management companies in the industry. We require our approved TSD providers to submit to thorough environmental and financial audits conducted on a routine basis. **ChemCare** customers receive financial indemnification under the **ChemCare** Handling Agreement that accompanies each shipment.

Additional expertise and services offered through **ChemCare** are:

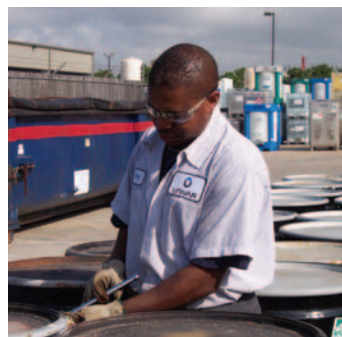

- Waste Stream Profiling
- Assistance in preparing manifests, LDR's and labels
- Assistance with reporting requirements
- Sampling/analytical
- Transportation services
- Project management
- On-site field services including tank cleaning, site clean-up, etc.
- Closures
- Waste minimization
- Online environmental services available through www.chemcare.com

LOGISTICS EXPERTISE

With a fleet of over 500 trucks and a national network of local facilities, **ChemCare** provides one of the most comprehensive waste management services in the nation.

ChemCare offers transportation services to meet customer requirements of all levels and complexities.

With branch locations in almost every state, **ChemCare** is facilitated to easily coordinate all types of shipments, from the smallest less-than-truckload pickups at a local plant, to cross-country bulk shipments.

MANAGEMENT OPTIONS

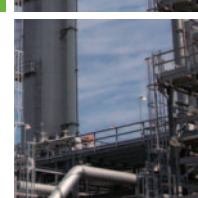

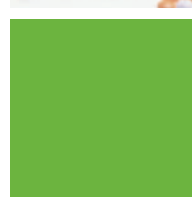

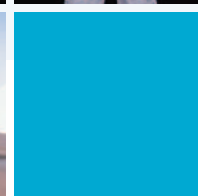

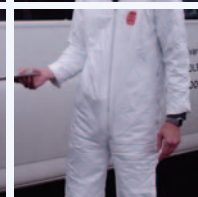

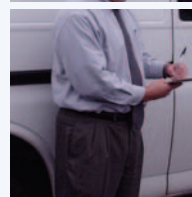

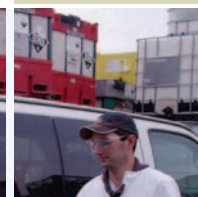

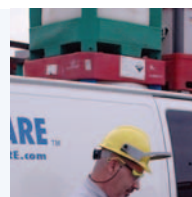

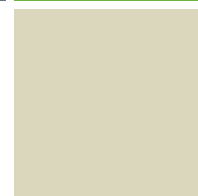

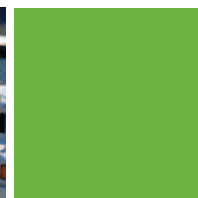

Through our network of approved TSD locations, **Univar's ChemCare®** service offers customers the ability to choose from a full spectrum of disposal technologies for waste disposal. The broad scope of the **ChemCare** program allows us to offer solutions for even the most stringent customer requirements. For everything from the most economical disposal options, to industry specific disposal technologies, **ChemCare** has the solution. With identical contracts in place with each disposal facility, the liability protection offered to all **ChemCare** customers is consistent, no matter the shipment destination.

HAZARDOUS AND NON-HAZARDOUS WASTE MANAGEMENT TECHNOLOGIES ARE AVAILABLE THROUGH CHEMCARE INCLUDING:

- Recycling
- Incineration
- Fuels blending
- Lab packing
- Aqueous treatment
- Landfill
- Deepwell injection
- Waste to energy
- On-site services such as tank cleaning and site clean-up

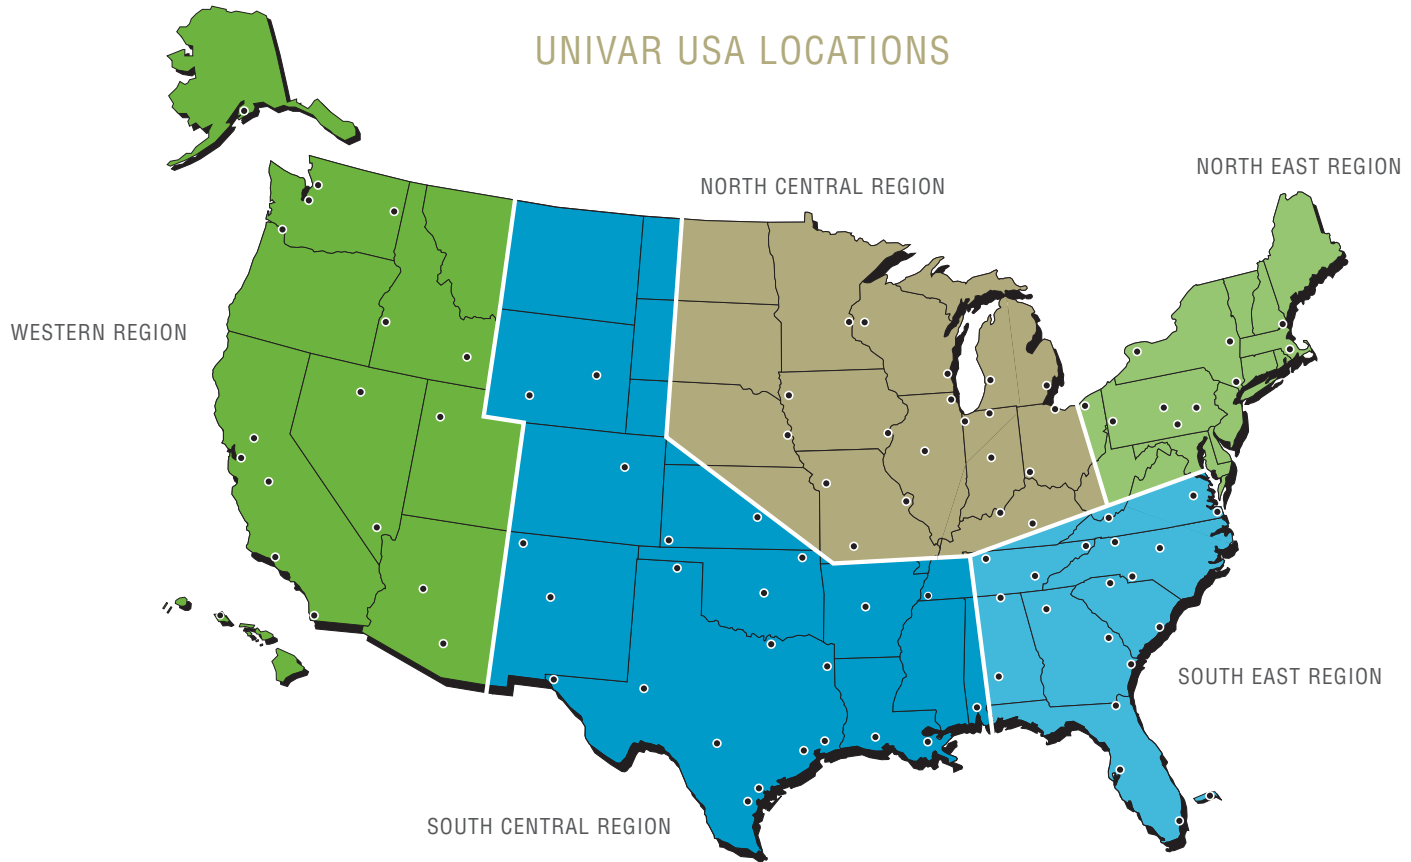

ChemCare provides customers with the convenience of having a single point of contact for all of their disposal needs. **ChemCare** offers friendly, convenient, local service from coast-to-coast and on the Internet. You're just a phone call or mouse click away from the solution for all of your waste disposal needs!

From shipment coordination through disposal, **ChemCare** provides a complete array of services designed with waste generators' needs in mind. No matter how small or how large your disposal requirements may be, **ChemCare** has a program to fit your needs.
